

Disaster in Honduras: Hurricane Mitch

Dear Chinook and Sea Knight User:

The final issue of *Tandem Notes/Phrog Phorum* in 1998 focuses entirely on the current humanitarian relief mission of Joint Task Force Bravo in Central America.

Boeing Photographic Services Manager Robert W. Ferguson captured these compelling images during a recent visit to **C Company, 159th Aviation, XVIII Airborne Corps** at Soto Cano Air Base in Honduras. You can see Bob's photos in color on the Boeing web site, www.boeing.com under Rotorcraft.

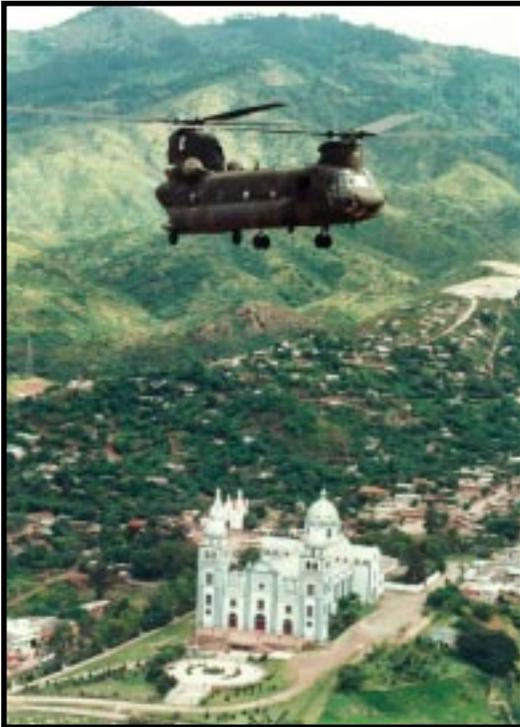

Although the images are of Chinooks, we believe all members of the Tandem Rotor community share pride and satisfaction in the knowledge that their aircraft have the special capabilities needed so often for life-saving missions such as this one.

As always, send all correspondence to Jack Satterfield, Boeing Philadelphia, P.O. Box 16858, M/S P10-18, Philadelphia, PA 19142-0858. Ph: (610) 591-8399; Fax (610) 591-2701; e-mail: john.r.satterfield@boeing.com.

Good luck and good flying!
