Incident - Forced Landing

Aircraft was intravel to airfield with 4 crewmen, 18 passengers and a water trailer sling load. Three (3) miles out a loud noise (grinding) was heard followed by severe vibration.

Pilot executed a forced landing and when sling load was 4 feet from ground it was dropped. Power was reduced and vibrations increased to severe level. Emergency shut down executed.

The combining xmsn A-8-758 was removed from aircraft and sent to CCAD for teardown. Boeing personnel were present at CCAD for tear down analysis.
